

WHAT'S YOUR FLAVOUR?

You will need:

- A potato and a carrot
- Old cereal box
- Paints and brush
- Plain paper

This tasty-looking ice cream is made with potato and carrot!
Here's how to create your own ...

1 Cut a triangle out of the cereal box for the cone. Cut strips of paper and glue on in a diamond pattern. Stick the cone on to a sheet of paper.

2 Ask an adult to help you cut your potato in half and slice a carrot. Mix your paints to make your favourite ice cream colours.

3 Paint the flat side of one of the halves of potato and then press it down on to the paper to print your scoops of ice cream above the cone.

4 Paint the slice of carrot with brown paint and then print it on to the ice cream to add a stick of chocolate to your ice cream!
